Our offerings and attributes:

Longstanding History

With over two decades in the industry, A.L.E has evolved and adapted to the ever-changing landscape of technology and business communications. Our longevity reflects stability, reliability, and a deep understanding of our clients' requirements.

Customised Solutions

A.L.E is known for its ability to work closely with clients to assess their unique needs. We design and implement tailored solutions to optimise print environments, streamline telecoms, and enhance overall business workflows and communication both internally and externally.

Multi-Faceted Expertise

The A.L.E diverse portfolio encompasses Print Fleet Management, Telecoms, and Business Workflow Software. This breadth of expertise allows us to provide holistic solutions that address various aspects of modern business communication needs.

Client-Centric Approach

Customer satisfaction is paramount for A.L.E. Our long history includes a consistent track record of building enduring partnerships with clients through responsive support and a commitment to meeting evolving needs.

Privately Owned

Being a privately owned company often translates into agility and client-focused operations. A.L.E can make agile decisions, tailor solutions to individual clients, and prioritise customer satisfaction.

Sustainable Initiatives

In today's environmentally conscious business landscape, A.L.E have sustainability initiatives in place to ensure that not only our own environmental goals are met but also those of our clients.

Cutting-Edge Technology

A.L.E is at the forefront of technology adoption. We supply market leading equipment, telecom solutions, and business workflow software to ensure clients benefit from the latest advancements.

Diverse Client Base

A.L.E's extensive experience means we serve a wide range of clients across various industries. This diversity equips us with insights into the distinct demands of different businesses.

A.L.E is a well-established and privately owned business communications company with a remarkable history spanning over two decades. Our multi-faceted expertise in business communications positions us as a valuable partner for businesses seeking comprehensive, tailored, and technologically advanced solutions.

Why choose us?

Expertise

With over two decades of experience, A.L.E has mastered the art of print fleet management. We understand the ins and outs of this critical business function, ensuring you get the best solutions.

Customisation

We don't believe in one-size-fits-all solutions. A.L.E works closely with you to assess your unique print environment and tailor our services to your specific needs.

Cutting-Edge Technology

Our commitment to staying at the forefront of print technology means you benefit from the latest innovations, ensuring efficiency and cost-effectiveness.

Cost Efficiency

PFM isn't just about managing your printers; it's about saving you money. A.L.E helps you reduce unnecessary expenses and optimise your print-related costs.

Eco-Friendly Solutions

We're passionate about sustainability. A.L.E can help you reduce your environmental footprint by implementing eco-friendly print practices.

Peace of Mind

Let us handle the complexities of print fleet management while you focus on your core business. A.L.E provides you with peace of mind knowing your print environment is in capable hands.

Responsive Support

When you partner with A.L.E, you get more than just solutions; you get a dedicated team ready to assist you whenever you need it, backed by our fully trained field engineers.

Partners

At A.L.E, we understand that the path to success often lies in collaboration. That's why we've partnered with market-leading manufacturers and software houses to offer you the very best in hardware and print management software.

Unlock the true power of Print Fleet Management with A.L.E and experience the difference it can make for your business. Reach out to us today and let's embark on a journey to optimise your print processes and elevate your efficiency to new heights!

Business Workflow Software

Streamlining your business

In the digital age, efficient business workflows are crucial for productivity and success. A.L.E offers a comprehensive suite of business workflow software solutions, including DocuWare, Therefore, and RSI, designed to streamline your operations, improve efficiency, and enhance collaboration across your organisation.

What we offer:

DocuWare is a versatile document management and workflow automation platform. A.L.E integrates DocuWare to help you:

Centralise Document Storage:

Store and organise documents in a secure, digital repository, reducing paper clutter and improving accessibility.

Streamline Processes:

Automate routine tasks and workflows, enabling faster decision-making and reducing manual errors.

Enhance Collaboration:

Collaborate seamlessly with team members, clients, and partners by sharing documents, annotations, and comments within the platform.

Data Security:

DocuWare ensures data security and compliance with encryption, access controls, and audit trails.

Therefore is a powerful information management and workflow automation software. A.L.E leverages Therefore to:

Capture Information:

Digitise and capture documents, emails, and data from various sources, making information readily accessible.

Workflow Automation:

Create customisable workflows to automate processes like approvals, routing, and notifications, improving efficiency.

Analytics and Reporting:

Gain insights into your operations with robust reporting and analytics tools, helping you make data-driven decisions.

Compliance:

Ensure regulatory compliance and data security with Therefore's encryption and access controls.

RICOH Smart Integration
Connectors

RICOH Smart Integration
Control+

RICOH Smart Integration
LogicFlow

RSI, provided by Ricoh, is a comprehensive records management and document scanning solution. A.L.E utilises RSI to:

Digitise Physical Records:

Convert paper documents into digital formats, making them easily searchable and accessible.

Secure Storage:

Store digital records in a secure and compliant manner, reducing the risk of loss or damage.

Quick Retrieval:

Retrieve documents with a few clicks, saving time and improving response to inquiries.

Retention and Compliance:

Implement records retention policies and ensure compliance with legal and regulatory requirements.

A.L.E's Business Workflow Software solutions empower your organisation to digitise, automate, and optimise your business processes. By integrating DocuWare, Therefore, and RSI, we help you improve productivity, reduce operational costs, enhance collaboration, and ensure the security and compliance of your valuable data. Experience the transformational power of streamlined workflows with A.L.E Business Workflow Software.

Telecoms

Connecting you to tomorrow

At A.L.E, we understand that in today's fast-paced world, reliable and efficient telecommunications are vital for your business's success. That's why we offer a comprehensive range of telecom solutions designed to keep you connected, competitive, and future-ready.
